

## Design Evaluation Criterion

Criteria	Type Of Evaluation	Rank Out Of 5 Design A	Notes	Rank Out Of 5, Design B
Does the solution follow the colour scheme outlined in the Non Functional Requirements?	Non Functional	4	Both schemes were the same.	4
Does the solution have a search function as outlined in the Functional Requirements?	Functional	3	Design A had a Linear search whereas Design B had a Binary search and this better meets the requirements of the search function.	5
Does the solution have a sort function as outlined in the Functional Requirements?	Functional	3	Design A had a Quick Sort, whereas Design B had a Selection Sort, Design B better fit this criteria.	5
Is the solution user friendly (easy to use)?	Efficiency	3	Design B was landscape and had more space, however Design A had larger buttons.	3
