

*\*\*Survey and Interview amalgamated in this document.*

1. Was the user interface visually appealing?

Yes

2. Were the elements (buttons, boxes, writing) of the program easy to find/placed in logical positions?

Yes

3. How easy was it to navigate the program and complete the tasks?

easy

4. Was the program responsive/fast enough?

Yes fast

5. How easy was it to understand what each button in the program does?

easy

6. How useful were the pop-up messages in terms of the information they provided?

useful

7. How would you rate the overall experience (1 to 10)?

9/10

8. What (minor) changes would you make to this program?

label buttons and drop-downs w/ more accurate descriptions of their functions

make pop-up messages more concise (w/out losing information)

9. Any other comments/feedback?

the UI was mostly intuitive -- has some quirks (eg button labelling and placement)

program was fast enough, wasn't frustrated by the latency

the pop-up messages were useful but very numerous
